Southern California Edison (SCE) offers the following comments on the California Independent System Operator (CAISO) Proposed Revision Request 1140¹.

The CAISO should define the term Resource Sharing LSE

'Resource Sharing LSE', in section 7.1, page 77², is not found anywhere else in the BPM or in the tariff. The CAISO should define this term. If the term is already defined, please provide a cross reference to the definition.

SCE recommends the following changes

Page 116³ (changes in red font):

- Monthly **use limit reached** nature of work will exempt the resource from RAIM for the rest of the month.
- Annual **use limit reached** nature of work will get a RAIM exemption for the RA month where the outage was submitted.
- Other **use limit reached** nature of work will get a RAIM exemption for the RA month where the outage was submitted.
